3.2 WET-DEC

FINISHED PRODUCT

The Wet-Dec is a pre-formed shower base developed specifically to allow the installation of a wetroom onto a timber floor.

Available in a range of sizes, the Wet-Dec has a built-in gradient ensuring that water from the shower is directed towards the drain outlet.

The Wet-Dec has a built-in four-way fall which provides a consistent gradient, making it ideal for use with mosaic tiles.

Each Wet-Dec is supplied with our height adjustable shower drain which is available in either a grained or mirrored stainless steel finish.

KEY FEATURES

- Designed for timber floors
- Four-way fall - suited to mosaic tiles
- 9 pre-formed sizes
- Trimmable
- Lifetime Guarantee
- Flow rate up to 27 L/min
- Height adjustable grate
- Flexible drain outlet

DEC

The Wet-Dec is a manufactured from glass reinforced plastic (GRP) making it easy to install whilst ensuring a consistent four-way gradient every time.

The four-way fall provides a consistent gradient of approximately 17mm to the drain, making it ideal for the installation of mosaic tiles.

The WD4 and WD5 both feature an up-stand as part of their design. This is essentially a raised border on 2 sides of the dec which allows the drain to be positioned as close to the corner as possible while maintaining strength and rigidity.

Its second function is to provide a level edge to tile against.

WET-DEC COMPONENTS

- Designed for timber floors
- Four-way fall - suited to mosaic tiles
- 9 pre-formed sizes
- Can be trimmed by up to 50mm
- Lifetime guarantee
- 22mm Depth

DEC SIZES

The Wet-Dec is available in 9 standard sizes:

- | A | B |
|--------|--------|
| 1300mm | 800mm |
| 1000mm | 1000mm |
| 1500mm | 800mm |
| 900mm | 900mm |
| 800mm | 800mm |
| 1400mm | 900mm |
| 1200mm | 1200mm |
| 1850mm | 900mm |
| 1700mm | 1700mm |

3.2 WET-DEC

TRAP

The trap has an adjustable ball joint for ease of installation and comes with removable dip-tube.

The trap is located within the base component which comes un-drilled allowing for extra flexibility.

- Multi-directional outlet
- 50mm Water seal
- 50mm Outlet, supplied with 50mm-42mm reducer
- BS I455/I566
- Easy to maintain
- Flow rate up to 27 L/min

TRAP WITH GRATE AND DRAIN

GRATE FINISH

The grate is available in a grained or mirrored finish.

Both are manufactured in 316 marine grade stainless steel, ensuring a stunning high quality finish.

Grate dimensions:
150mm x 150mm

To cope with different tile thicknesses the grate is available in two heights;

- 7mm - Adjustable between 7mm-12mm
- 12mm - Adjustable between 12mm-20mm

Type 7G - 7mm Grained:
Grained stainless steel adjustable between 7mm-12mm.

Type 12G - 12mm Grained:
Grained stainless steel adjustable between 12mm-20mm.

Type 7M - 12mm Mirrored:
Mirrored stainless steel adjustable between 7mm-12mm.

Type 12M - 12mm Mirrored:
Mirrored stainless steel adjustable between 12mm-20mm.

² For full technical details please refer to Section 4

3.2 WET-DEC

HOW TO SPECIFY

To specify your Wet-Dec, first select the required size of shower area, followed by the grate height and finally the grate finish.

Example: 1500mm x 800mm Wet-Dec with 7mm mirrored grate would be code: WD3/Type 7M

Membrane

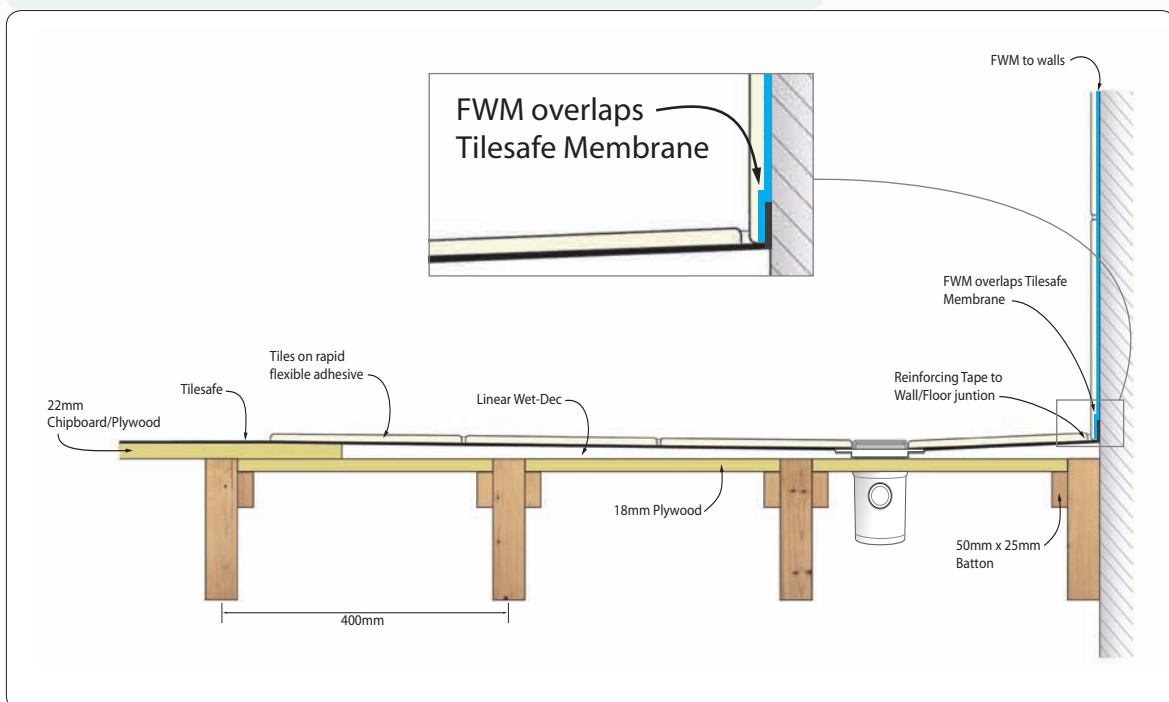

It is essential that the floor is waterproofed or 'tanked' using one of the membranes in the 'product details' on page 12.

For timber floors we would recommend the Tilesafe membrane is applied to the entire wetroom floor.

FWM should then be applied to the walls of the shower area plus an additional 300mm and overlapped onto the Tilesafe Reinforcing Tape.

TECHNICAL SUPPORT

For technical assistance please contact our experienced technical department who will be happy to assist in the following;

- Project design
- Product specification
- CAD drawings
- Method statements

TECHNICAL SEMINARS

We are able to provide CPD based seminars designed to provide guidance on key wetroom design considerations such as;

- Design and layout
- Drainage
- Waterproofing
- Flow rates

For further information please contact our technical department.

TECHNICAL ADVICE

Our team of technical advisors are able to visit you to provide a professional advisory service and assist with project design and specification.

We are also able to attend site to provide technical support and assistance.

INSTALLATION

With over 30 years experience in the waterproofing industry, our involvement in a project from conception to completion ensures that quality is never compromised.

Our services include;

- Design and installation
- 10 Year Insured Installation guarantee
- On-site training
